

Mapping Exercise

Explore what you see as the best use of space for this project. Where do you see people gathering? Where do you envision paths and benches? What needs to happen to this space to make it an asset for the community?

Draw your ideas and your findings.

Think about where there are trees, where there are slopes, and where there are neighbors.

Key

Property Boundary

Steep Slope
(no building)

Large Tree
(trunk)

Small Tree
(trunk)

Utility cover
