PROFILE OF CANDIDATE FOR MAYOR

Kayce Munyeneh

I graduated Cum Laude, Cum Honore, with a B.A. in Political Science from Columbia College. I graduated with honors with a Master's in Leadership from Georgetown University. I've also recently completed a Public Sector Leadership Certificate from Cornell University and am a graduate of the Academy of Excellence in Local

Governance. I am a long-time member of Delta Sigma Theta Sorority Incorporated and Order of Eastern Star.

During my career, I've advocated tirelessly for victims and employees. I worked with the Metropolitan Police Department and the National Center for Victims of Crime simultaneously in full-time and part-time positions respectively while also serving as an Adjunct Processor for the Department of Homeland Security DVIP. I served fifty thousand victims of crime before shifting careers to Labor Relations and Civil Rights. I transitioned from local government to federal government and now enjoy entrepreneurship.

In Cheverly, I served as President of the Fourth Ward Civic Association, Women's Club Member, Co-Founder of the Mount Hope Commission, Councilmember for Ward 4, and Vice Mayor. In July 2021, I was appointed Mayor and hit the ground running with supporting CPD in adequate staffing, beginning the strategic plan process, and tackling infrastructure issues. I pushed for a strategic plan because a failure to plan is a plan to fail. I lead through the pandemic with vision and purpose and made difficult decisions that saved the town over \$97,000 in expenses for our staff.

I have the work ethic, experience, and drive Cheverly needs to push us through our next phase of growth and expansion. These qualities are what led to the county's shift in disposition about the annexation of the Hospital Hill. I know I have what it takes to continue to maintain the Cheverly we know and get us ready for the future. The coffee shop, dog park, responsible and environmentally friendly development around us, and schools that all of our kids can attend are just around the corner.

If you haven't noticed, I like working. I'd sure appreciate your vote on May 2, 2022, to keep working for Cheverly. Check out www.kayceformayor.com or email kayceformayor@gmail.com

PROFILE OF CANDIDATE FOR WARD 4 COUNCILMEMBER

Joseph Dalaker

Greetings neighbors! My name is Joe Dalaker. I have had the honor of serving as your Ward 4 councilmember since August. If you are pleased with my work so far, I would like the chance to help see through the many projects that the town is undertaking for the good of the community.

A councilmember must value connection: listening

to residents, connecting needs with resources, and connecting with other officials to bring about positive results. We are a community of people who care deeply about our town and are willing to work together to improve it. Since being on council I have met residents willing to:

- volunteer to help organize youth sports,
- volunteer to improve the natural environment,
- help reduce speeding by petitioning for speed bumps and raised crosswalks,
- advocate that town facilities, messaging, and services be inclusive with respect to disability, race, and language differences,
- advocate for children and parents with regard to education, socialization, and safety, and
- advocate for trails and infrastructure that would better connect both residents and commuters with businesses south of Ward 4.

As councilmember I foster this enthusiasm by helping residents find others to work together on a common purpose. I coordinate with town officials on the appropriate use of town resources, whether in the form of grants or town services, in support of these activities. These policy issues don't live in a vacuum—they affect each other, and are affected by influences outside the town. To that end, I advocate for residents on these issues, with the mayor and council, by reaching out to county level or state level officials.

With input from residents and town staff, I had the pleasure of working with fellow councilmembers on a strategic plan for the town, and would like your permission to work to help see the plan through.

Finally, I believe town policies be developed with equity in mind. Whose voices aren't we hearing from? I stay curious and open to new ideas and perspectives from residents, other councilmembers, and town staff.

Please visit DalakerPublicAffairs.com to find out more.

PROFILE OF CANDIDATE FOR WARD 4 COUNCILMEMBER

Jhonny A. Merino

Hello neighbors, I am Jhonny Merino and I am running to represent the residents of Ward 4. My wife Sydney and I moved to Cheverly in 2014. Four boys later, we are still here and enjoying Cheverly to the fullest. After migrating from Ecuador to the US, I grew up not too far from here in Hyattsville, MD and graduated from

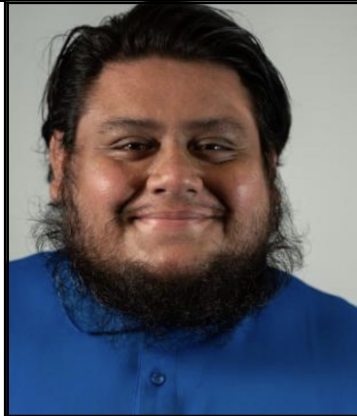

Northwestern High School in Adelphi Road (Let's Go Wildcats!!!). After 9/11, I decided to join the United States Marine Corps (2002-2010). In 2009 I earned a B.B.A in International Business Management from The University of Texas at San Antonio and in 2015 I earned a Masters in International Commerce and Policy from George Mason University. I also own a small construction and design business and enjoy spending my free time playing and coaching soccer.

Since moving to Cheverly, we've grown our family and met amazing neighbors, neighbors that have gone through so much heartache and pain during this pandemic, neighbors that want to provide the very best for their kids, neighbors that want to stay afloat. My background has given me a lifelong lesson in teamwork, understanding both the collective effort it takes to achieve goals and the unique value each individual offers for the community benefit.

I want to be your council member because I believe there are always ways to improve our community and our town. Opportunities including – but not limited to – public works, town services, youth services and after school activities, traffic issues, safety, etc. All areas of focus that can ensure that we leave a better town for future residents, residents who age in place, and our children.

Lastly, I am running for ward 4 council because I believe in a democratic system in which the people have a right to a choice and responsibility to impact. I don't make promises I can't keep but do try to give my best in everything that I do. Like the saying goes, everything in life has a solution, except death so tell someone you love them.

MAYOR'S CORNER

MAYOR KAYCE MUNYENEH

FYI

FOR YOUR INFORMATION

By Mayor Kayce Munyeneh

Call 301-773-8360 to contact the Mayor

Message from the Mayor

Spring has Sprung!

We are trying to chart a path forward to normalcy and it has been so much fun to see your faces. From basketball, events for seniors, and youth development initiatives, it feels like Town Hall is back to being the center of energy for the town. I am cautiously optimistic that brighter days without COVID are ahead. Despite mask mandates being dropped, we are still taking safety precautions in town buildings. We are still monitoring temperatures, reminding people to wash their hands, and will have tons of sanitizer in place. We have already had success with opening back up and no reports of infection. Safety first!

By the time this newsletter prints, Cheverly will have had its first ever State of Cheverly Address. Hopefully it was an opportunity to learn about all of the work our staff have been doing and the see the strides Mayor and Council have made. Cheverly remains a treasure of Prince George's, but I just can't wait to see how we navigate new development, new buildings, and future opportunities. This is an exciting time!

This month, we take some time to honor and take care of the planet we have been given. We only get one! During Earth Week we will have a series of events. There will be a Youth Green Day Hike on April 21, 2022 at 5 p.m., MDE will join us April 21st to discuss idling vehicles, April 22nd is Earth Day! To top it off, remember Spring also brings spring cleaning! Last year we held our first ever town wide clean-up day and it was a hit! So many of you found items that "sparked joy" and threw several others away. April 23, 2022 will be an opportunity to do it again. Clean out those basements and attics and throw it away! Our last attempt with this was well received but we did have some people step forward to offer suggestions for improvement. If you have ideas, please don't hesitate to contact the Town.

I want to encourage you to keep an eye out for budget meetings. However uneventful they may be, Mayor and Council are making decisions with your tax dollars, and you need to know about it. We are responsible fiduciary agents for the town but also have insight about the needs of the town from all angles. For example, we have operated with minimal staff doing the work of several people for decades. It is now time to adequately staff every department to meet the needs of our residents. There are additional areas in the budget that will demand a great deal of attention. Come out to the meetings or join us on Zoom to hear.

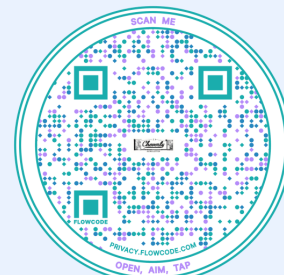

As you know I spent half of my career in law enforcement. Every April I am used to highlighting National Child Abuse Month and Sexual Assault Awareness Month. It is not a fun or exciting topic but extremely necessary. Use this newsletter to be a springboard for conversations in your home if you have minor children. The theme this year is "Building Safe Online Spaces Together". Look out for more offerings for survivors of abuse this month.

My Mayor's Mention this month is all of our coaches in town. So many parents rely on someone to offer guidance in a particular area in life. Whether it be a music lesson, soccer, or basketball, coaches show our children ways to achieve their goals and are a resource for families. Being able to know we can send our children to extra-curricular activities in town and feel safe they will not be harmed but shaped into the adults they will be is a true blessing. Hat's off!

WARD 4: COUNCILMEMBER JOSEPH DALAKER

Greetings neighbors! Two items:

1. **Disability Advisory Board.** In consultation with the Mayor and Town Administrator I am asking for volunteers to serve on a new board to advise Mayor and Council on issues impacting persons with disabilities in Cheverly.

The purpose of the board would be to advise mayor and council on the current or likely impact of town projects and policies on persons with disabilities. The board would help us identify improvements we ought to make, in policies as well as in the physical and virtual environments, and inform us of best practices. The board members should be persons with first-hand knowledge of how less-than-ideal practices affect the community. If you are interested please e-mail me at CMWard4@cheverly-md.gov or text / call me at (301) 875-7498.

2. My website, **DalakerPublicAffairs.com**, provides additional context around issues before the town, reminders and debriefs of town events, and links to various resources on other websites. At the bottom of the homepage you can sign up to receive my updates by e-mail (DalakerPublicAffairs.com/#contact). The QR code shown here takes you to that page as well. Hope you find it helpful in staying up to speed!

WARD 6: COUNCILMEMBER AMY FRY

Cheverly neighbors, I encourage you to use this link <https://linktr.ee/FryWard6> or the QR Code to find ways to receive regular updates from me. I have a variety of ways I can be reached or deliver updates and want to ensure that I am accessible and communicative.

THE TOWN: NEWS & ANNOUNCEMENTS

Message from the Chief

Hello Cheverly Residents, it has been an honor to serve the Cheverly Community as your (Interim) Chief of Police. Proud and happy to announce moving forward into the unforeseeable future we can plan together toward what National Highway Safety Administration titled a "Safe Community" (comprehensive plan to manage a crime and traffic safe community). Today, police departments have become increasingly aware that alert and proactive traffic law enforcement is also an excellent tool to detect and apprehend those who have committed criminal acts, as well as to deter crimes before they happen. In summary and communicating for the first time as newly selected Chief of Police, in my opinion, the "Safe Communities approach is intended to serve as a guide for both police and Cheverly residents. As Chief, I do recognize that staffing, equipment, legal and geographical considerations, as well as contemporary community standards, vary among the six wards and that no single policy will be appropriate for every ward (i.e., traffic heavier in one ward versus another, congestion, businesses, etc.) I will attempt to outline the most critical traffic safety factors that should be present in our "safe Communities" techniques and strategies. Most important, the primary goal will remain to Our focus to enhance the quality of life for our residents as well as building lifelong relationships, by professionally policing this wonderful community.

With more people opting to walk or bicycle as a healthy and economic transportation alternative, as the season trends toward increased outdoor activities, Cheverly Police Department (CPD) will increase our effort to foster a safer environment for outdoor activities, specifically pedestrians and bicyclists.

This month we will discuss bicycle safety and next month will focus on pedestrian safety, both deserving of equal importance.

A few things to keep in mind, pedestrians, bicyclists, motorcyclists, scooter riders and skate boarders are referred to as "vulnerable road users" and are most at risk of sustaining injury in the event of a crash. First and foremost, to keep in mind, as you might expect, when a crash occurs between a

vehicle and a pedestrian or bicycle. It's the cyclist who is most likely to be injured. A large percentage of crashes can be avoided if motorists, pedestrians, and cyclists follow the rules of the road and watch out for each other.

Tips for Parents, guardians, and Kids (Safe Riding Tips)
Before riding make sure you, your family, and the bicycle, scooter, skateboard is ready to ride.

Remember to:

- Wear a Bicycle Helmet – Everyone – at every age – should wear bicycle helmets. For more guidance on fitting a helmet, see national highway Transportation safety Administration's (NHTSA) *Fitting Your Bike Helmet*
- Adjust Your Bicycle to Fit – Stand over your bicycle. There should be 1 to 2 inches between the rider and the top tube (bar). If a road bike, 3-4 inches. Different styled bicycles use differing measuring, use NHTSA
- Check Your Equipment – Before riding, inflate tires properly and check to ensure the brakes work.
- See and Be Seen – Whether daytime, dawn or dusk, bad weather, or at night, make yourself visible to others. Wear neon, fluorescent o-r other bright colors when riding, wear reflective tape markings. Remember, just because you can see a driver doesn't mean the driver can see you.
- Control the Bicycle – Ride with two hands on the handlebars, except when signaling a turn. Place books and other items in a bicycle carrier or backpack.
- Watch For and Avoid Road Hazards – Look for hazards such as potholes, broken glass, gravel, puddles, leaves, dogs/ cats, and pedestrians. All these hazards can contribute towards a crash.
- Use Verbal and Non-Verbal Communication – This includes eye contact with drivers, turn signals, pointing to road hazards for other bicyclists.

Avoid Riding at Night – It's hard for road users to see bicyclists at dusk, dawn, and nighttime. Use reflectors on the front and rear of your bicycle. White lights and red rear reflectors or lights are required by law in all States.

Rules of the Road – Bicycling on the Road

In all states (Cheverly) bicycles on the roadway are

considered vehicles, and bicyclists are the drivers, with the same rights and responsibilities as motorists to follow the rules of the road. When riding, always:

- Go With the Traffic Flow – Ride on the right in the same direction as other vehicles. Go with the flow – not against it.
- Obey All Traffic Laws – A bicycle is a vehicle and you're the driver. When you ride in the street, obey all traffic laws and lane markings.
- Yield to Traffic – Almost always, drivers on smaller roads must yield (wait) for traffic on larger roads. Yield to pedestrians in crosswalks.
- Be Predictable – Ride in a straight line, not in and out of cars or on and off the sidewalks.
- Always stay Alert – Use your eyes and ears. Watch for potholes, cracks, wet leaves, storm grates, or anything that could help you lose control. Listen for traffic and avoid dangerous situations; DO NOT USE PERSONAL ELECTRONICS WHEN YOU RIDE.
- Look Before Turning – When turning always look (left, right, and left again) and look behind you for a break in traffic, and then signal before making the turn. IMPORTANT watch for left-right turning traffic.
- Watch for Parked Cars – Ride far enough out from the curb to avoid the unexpected from parked cars (like doors opening, or cars pulling out)

Traffic Safety Facts (National Highway Traffic Safety Administration)

There are two main types of crashes: the most common (falls), and the most serious (the ones with cars). Regardless of the reason for the crash, prevention is the name of the game. There are things you can do to decrease your risk of a crash. First, know some bicycle safety facts:

1. Regardless of the season, bicyclist deaths occurred most often between 6 p.m. and 9 p.m.
2. Bicyclist injuries are significantly higher for males than females
3. One in four serious injury crashes in 2019 involved a bicyclist who had been drinking.

Maryland Motor Vehicle Administration Laws:

1. Maryland Law (Motor Scooter Law) requires all motor scooters and mopeds to be titled and insured. All motor scooter and moped operators must hold a valid drivers

license or a moped operator's permit and wear a helmet and eye protection. All motor scooters must display a title decal on the rear of the vehicle.

Skateboard Safety:

1. Never ride in the street.
2. Never skateboard in wet weather
3. When learning to ride, try out skateboarding on a smooth driveway that's away from all traffic, the beginner section at a skate park or parking lot NOT being used.
4. At skate parks, obey all rules
5. Do not skateboard in crowded areas.

Additionally, there is much work to do. But I am confident we can be successful in this endeavor with our Summer Traffic Initiatives with our goal to raise awareness and prevent injuries/collisions within and around this wonderful community. The term "Safe Communities" is recognized by NHTSA and described as: vast majority of injuries and deaths are not acts of fate but are predictable and preventable. Injury patterns, including traffic-related injury patterns vary by age group, gender, and cultural group. There are also seasonal and geographic patterns to injury. Once the cause of injuries is identified interventions can be designed to address the cause and reduce the number of injuries. I wholeheartedly believe, based on my time spent with NHTSA (one-year officer leadership internship) "The Safe Communities" Approach will not only meet, help this community to maximize our federal partners help with successfully managing our day-to-day traffic safety concerns. Next month, I will touch on Pedestrian Safety. Lastly, as luck would have it, we have been able to increase the Cheverly Police Department labor force, with the addition of hiring THREE lateral police officers. Thus, while remaining open to new ideas and willing to help shape our "Safe Communities" ideology, we have made strides towards 24-hour Cheverly Police Department patrol coverage. The beginning of April the available hours for service are as follows 7:00 A.M to 3:00 A.M. daily. Thus leaving the hours between 3:01 A.M. to 6:59 A.M., covered by Prince George's County Police Department nonemergency number (301) 352-1200 and 911 emergency. To help with this trust-building process, I will continue to review and evaluate our past body of work, while incorporating proven methods of policing to ensure we grow and succeed together, one contact at a time.

Webinar ID: 816 0801 6176

The Town of Cheverly and its Green Infrastructure Committee are working in partnership with the Maryland Department of the Environment (MDE) and the University of Maryland to monitor and clean up air pollution. 22 monitoring sites are now spread throughout the Cheverly area (<https://rb.gy/zfoptw>). In 2021, using this information and public input, MDE ran a two-month intensive inspection effort in the area (<https://rb.gy/y2beof>) and is now beginning to implement three Cheverly-focused targeted enforcement initiatives. These are a focus on potentially illegal truck idling, one on fugitive dust, and one that continues the targeted inspection program that was started in 2021 with twice-monthly inspections in the Cheverly and surrounding areas.

You can help!! At the community meeting on the 21st, MDE will be providing an overview of this new effort, but more importantly, seeking the community's ideas and input on what the most important issues are. The meeting will also include a session on how residents can report problems that they see to help MDE take action to eliminate activities that create unhealthy air pollution.

CHEVERLY VILLAGE **Tree Care and Upcoming Events**

We enjoy many benefits from our town's beautiful tree canopy. However, tree care and management require an attentive eye and on-going maintenance. Whether you've identified specific problem trees on your property or are interested in learning how to improve the health of your trees, a tree expert can help.

Here are some tips from *Washington Consumer Checkbook* (WCC) that you can use to vet potential experts. Staff writer Kevin Brasler points out that while many tree care providers rate well for quality of work, D.C.-area customers "often complained of being overcharged, getting poor results, and having their property damaged by careless, untrained workers." *

He recommends that consumers be sure to "include a thorough description of the work in a written contract that specifies who cleans up afterward, hauls away debris and wood, and removes the stump. What is not specified in writing is very unlikely to get done." And it's always a good idea to ask to see certificates of insurance, due to the dangers involved with pruning or removing trees.

You can read the full article here: <https://www.checkbook.org/washington-area/tree-care/articles/How-to-Choose-a-Tree-Care-Service-2232>

The Town of Cheverly is committed to improving our tree canopy and provides free tree planting services for all town residents. Additionally, Cheverly offers some consulting services with a local arborist to identify trees for pruning, removal, and replacement. For more information, call or email the Cheverly Public Works office at secretarypublicworks@cheverly-md.gov.

* Cheverly Village members can ask the Village for contractor ratings published in WCC. Other residents can obtain WCC ratings from the Prince George's County Memorial Library System by calling "Ask a Librarian" at (240) 455-5451 or by reviewing printed copies of *WCC* at the Greenbelt or New Carrollton libraries.

Cheverly Village members can obtain information about a wide range of service providers that have been informally recommended by Cheverly neighbors. In addition, the Village's new Preferred Providers Group is developing a robust list of providers that it is vetting through the Better Business Bureau and other sources.

SAVE THE DATES:

Monday morning or afternoon, April 4: Beginning of the next series of Cathy Smith's popular workshop on **Memoir Writing**. For details, contact Cathy at 240 460 0263. Major discounts for Village members and volunteers.
