# FYI

### FOR YOUR INFORMATION

By Mayor Kayce Munyeneh  
Call 301-773-8360 to contact the Mayor

With 7,000 people as your boss, it is impossible to please everyone. Likewise, it can often be a challenge to work hand-in-hand with Councilmembers; I know, I have been one. The change in the dynamics for the mayor and staff sometimes can blur the lines between the legislative branch and executive branches of local government. Because of those inherent drawbacks in our political system, a mayor is often left to wonder how she is doing in the public eye. The only real feedback comes at election time. During those gaps of time, doubt can often creep into one's mind. There should be no doubt in anyone's mind that Cheverly owes a great debt to our former mayor, Laila Riazi. She served our community remarkably until her resignation in June 2021.

We should also acknowledge the contributions of Councilmember Jenny Garcia, who was a true advocate for the people of Ward 5. As the first Latina to serve on the Council, her commitment serves as representation for people from all walks of life to know they too can lead their communities.

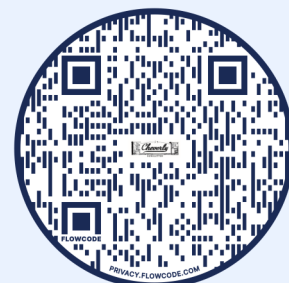

I have been fortunate in my few weeks as mayor to have had an amazing support base of residents, and I thank you for that support and encouragement — many times when I needed it the most! My goal is always to be accessible to residents. Writing in the newsletter, posting on listservs, using social media, attending organizational meetings, and simply stopping at the market or on the street to chat are ways I feel I can hear from you. I will try to be responsive and accessible, especially when we start seeing each other in person again. I will be visiting schools and representing our town at many county and state meetings so that people get to know more about Cheverly. We have long been called the “best kept secret in Prince George's County”. I want to show people just how wonderful our little town is.

In the coming days, Cheverly is going to experience an overhaul. You will see the traditions we hold so dear will remain, but many things will change for the better. We have already started with bringing our accounting system into the twenty first century so that we don't lose a full day of work on payroll and several of you have already seen that work and town sessions are now shorter, more manageable meetings. Most of these changes will have to do with infrastructure. With the introduction of the Water Task Force, residents will be able to see where their reported issue

issue regarding water is in a queue and know someone is aware of their issue. I have heard from so many of you regarding matters that have been ongoing for years. I will not promise to fix every problem, but I will commit to hearing every issue and working to find a solution that does not take several decades.

Some of these changes, I will specifically need you to help with. In a town with some of the most generous people in the world, I have had reports of people not feeling welcome or experiencing the “neighborliness” so many Cheverlians boast about. You will consistently see me, hear me, read me reminding everyone of my locus of control. What I can do. What I can’t do. What you can do. My role includes having influence and negotiating with involved parties, but ultimately there will be some things I have little control over.

I want you to know that I am truly honored to serve you Cheverly. I love getting things done and look forward to working for our town.

### **Mosquito Spraying Update**

I have had the opportunity to speak with MDA about continued spraying for mosquitoes. You should be aware that if a house in the middle of the street does not want to be sprayed, MDA cannot prevent the spray from traveling to the other properties, so their policy is not to spray at all. They have to turn off the machine 300 ft before a home that has applied for an exemption and 300 ft after the home. The only time the MDA can spray without consent is if there is a threat to public safety, i.e., a few years ago MDA stated they found mosquitos with West Nile Virus. If they encounter such issues, they will spray regardless of exemptions. This was not a decision made by Mayor and Council, this is MDA policy.

My understanding is that we have seen the last of sprayings of Cheverly. MDA explained that the truck may be running but the sprayer is not on for the addresses that requested the exemptions. The Mosquito Program will continue to treat larvae so we may continue to see the trucks from time to time. They will be treating standing water and other breeding grounds with a form of bacteria (not a chemical). The bacteria is ineffective on adult mosquitos so as previously mentioned, we must remain vigilant about preventing the breeding of mosquitos on our individual properties.

What I can do: Continue to keep you informed about the larvae treatment, report any continued spraying (should not take place), and maintain an open line of communication for all stakeholders.

What I can’t do: Change your neighbor's minds about being sprayed. Everyone is entitled to their beliefs and opinions about what is safe for their families.

What you can do: Engage your neighbors and have conversations with them about their concerns. We are all better served when we listen to each other.

## **Reimagining Cheverly Town Seal Community Survey – Coming Soon!**

Cheverly's Town Seal, which featured an image of Mt. Hope Plantation was discarded by the Town in 2020 in favor of a redesign that better reflected Town ideals. In May 2021, the Town Council hired the Neighborhood Design Center (NDC) to lead a community engagement and design process to create a new Town Seal. Council appointed a Town Seal Commission, made up of residents from each of the six wards, to work with NDC and their design team on the Seal redesign. Young people and artists from each ward were also selected for the committee as these groups offer critical perspectives for the redesign. The first phase of this process is engagement and outreach to the town. On July 26th we will launch a community wide survey, it will be available in English and Spanish. It will be shared on social media, emailed to local organizations and through other town channels. It will primarily be online but paper copies will be available on request as well as the option of taking a phone survey. We invite all residents to complete this survey to ensure the new design captures the values and spirit of the town, and tell us why a new seal is important!

If you have any questions about the survey or the process, you can contact Sophie Morley at the Neighborhood Design Center [smorley@ndc-md.org](mailto:smorley@ndc-md.org)

##### **Online Reporting**

In response to the COVID-19 pandemic, the department implemented an online reporting system for some non-

emergency calls for service. These calls include auto tampering, destruction of property/property damage, lost property, theft from autos, and certain other thefts that don't rise to the

system, in lieu of the non-emergency number, for incidents that meet the requirements.

## **CHEVERLY DAY** **WATCH THIS SPACE**

CHEVERLY DAY IS OCTOBER 2, 2021

Cheverly Day is back for the town's 90th anniversary. Bubble soccer is back. The music is back. The beer garden. The wine tent. The food trucks. Everything is coming back!

The Cheverly Day Team could use some help. We need face painters. We will provide the supplies and can offer service hours to students

We could use someone or a group to build a couple of mini golf holes.

We need parade entries.

We need sponsors.

Community groups can sign up for tables.

If you would like to do any of these, comment on the contact form at: [www.cheverlyday.org](http://www.cheverlyday.org)

We need kids for the Cheverly Day Kids Chorus -- ages 8-17. The chorus will sing a new song about Cheverly and the National Anthem before the fireworks. There will be some practices before Cheverly Day. The choral director is Caitriona McEniry-Roschke. If your children want to be included, please contact Joni Beall at [cheverlykidschoral@gmail.com](mailto:cheverlykidschoral@gmail.com) before August 1. Please include names, ages and contact info.

**Let's make this Cheverly Day the best in the town's 90 years.**

## **RECREATIONAL COUNCIL**

As long as the Town Building is closed, we will not host any functions. Our apologies. Stay healthy and safe.

## **GREEN@HOME – What is a Native Plant?**

Simply put, a native plant is one that occurs naturally in the place where it evolved. Or you can say that it is one that occurs naturally in a particular region, state, ecosystem, and habitat without direct or indirect human actions. So we look for plants native to Maryland, and in particular to the Piedmont/Coastal Plain region. Plants native to our area support local food webs. They feed the insects that feed our baby birds. They produce seeds that feed birds and other wildlife. In total, we can say they support us!

That's why we are encouraged to add more native plants to our yards. Woody, structural plants support a high level of biodiversity. Replacing lawn grass with native plants reduces maintenance with its potential for air and water pollution.

Did you know? You can learn more about using native plants and trees and converting your lawn to a conservation landscape through the University of Maryland Extension's [Bay-Wise Program](#). And the Prince George's chapter of the National Audubon Society's Habitat Advisors program will help you evaluate your yard through on-site visits; contact [kathyk9@gmail.com](mailto:kathyk9@gmail.com).

Which native plants are right for your yard? A good guide is [Native Plants for Wildlife Habitat and Conservation Landscaping](#), an online database managed by the Alliance for the Bay and the U.S. Fish and Wildlife Service. See also the Maryland Native Plant Society's [Landscaping with Native Plants](#).

Where can you find native plants for your yard? Unfortunately we can't count on Lowe's and Home Depot to fill our native plant needs. [Chesapeake Natives](#) in Rosaryville, Maryland grows Piedmont/Coastal Plain ecotype plants from seed. [Earth Sangha's](#) wild plant nursery in Virginia propagates native plants directly from local forests and meadows. Find more tips on buying native plants at [How to Shop for Native Plants](#).

Together we can provide a healthier habitat for wildlife and for ourselves!

## CHEVERLY NATIVE PLANTING PROJECT

The Cheverly Native Planting Project is offering a 2-for-1 Native for Invasive Shrubs Trade to 25 town residents. If you remove one Amur honeysuckle bush (*Lonicera maackii*), Nandina (*Nandina domestica*), or Japanese barberry (*Berberis thunbergia*) from your yard, we will provide you with TWO free native shrubs to replace it! We will ask for before and after photos and can provide identification and removal/planting assistance to those who need help. The trade will be on a first come, first served basis and a limit of one 2-for-1 Trade per residence. There will be a variety of native shrubs from which to choose.

The shrubs we are targeting for removal are on the State of Maryland's Invasive Plant Lists because of the problems they cause to the environment and local agriculture. In fact, Amur honeysuckle is so problematic, it can no longer be sold in the state. Although Nandina or Japanese barberry still can be sold, warning signs of their environmental hazards must be displayed next to the plants at any store that carries them.

Native shrubs, on the other hand, provide a variety environmental benefits including increasing biodiversity, improving the health of our green spaces, and requiring less resources to maintain.

To participate in the 2-for-1 Trade or volunteer with us, email us at [cheverlynativeplantingproject@gmail.com](mailto:cheverlynativeplantingproject@gmail.com) for more information.

## CHEVERLY VILLAGE

### Why Do People Join Cheverly Village?

We recently gathered a small number of members to explore the question, "how do you describe what it is to be a member of Cheverly Village?" Here is some of what we heard:

"I joined because I expected to need support in caring for my husband, but I've found that what I value even more than that is that I've met so many people. Knowing people and being known in one's community is very empowering."

"Friends from my professional life were moving away. I knew that social isolation is a major issue among seniors, and I believe it's important to plan for my own aging."

"Cheverly Village doesn't take over your life; the relationships complement all the other friend circles you have."

"I turn to the Village for help *now*—well before we need things like rides; it's great to get advice with a project or help with a technical device."

"When you're in your early 70s, and you're able to get to know, to admire, and to look forward to *being like* someone who's in her 90s—that's wonderful!"

"The expression is, 'Growing old is not for the faint of heart.' It can sometimes be scary. Well, in the Village we are all accompanying each other on this trip. We're enjoying it together."

"The book club is a real winner." "I've appreciated the really substantive issues that we've discussed at the level of heart rather than just brain."

"As a member I don't *have* to do anything. I'm just welcomed. There are many options for engagement, but I can say, 'That walk sounds like fun,' without feeling an obligation to do it." "The games—Scrabble, Bingo, are low pressure, friendly competition."

"Sometimes I run into people who say, 'I'm not ready.' They seem to be afraid to join the Village—that if they join, their next step is hospice care! I want to say, 'Hey, it doesn't work like that! You get to live fully *now*!'"

"When we started the Village, we talked about the value of the services the Village would provide. Now we see that that the Village offers things that don't translate into monetary value. They are what is valuable in our lives. How do we articulate that?"

To find out how to be a volunteer, a member, or a supporter of Cheverly Village, reach us at [www.cheverlyvillage.org](http://www.cheverlyvillage.org), 240-770-1033, or [village@cheverlyvillage.org](mailto:village@cheverlyvillage.org).
